LONG TERM PALLIATIVE CARE

The Help Association can advise you as to the future care for long term illness.

People who have been diagnosed with a terminal illness i.e. cancer or following a stroke, may well need long term palliative nursing care. In the first instance an appointment should be made with the Welfare Officer of Help Association. Telephone the Help Office at San Miguel on 966 723 733, between 10am and 1.30pm Monday to Friday to arrange this.

Practical Assistance is usually required initially, i.e. transport, interpreters, contacting family members etc.

Long Term Nursing Care – our advice would be to suggest local nurses for private nursing cover and to ensure that the family member responsible is aware that they should contact their local Department of Social Services, for nursing assistance in the first instance.
